*Generalist operator with 2 years in B2B SaaS spanning product, GTM, and ops, driving 0-to-1 product strategy, AI-augmented growth systems, and cross-functional execution as Founder's Associate at an AI SaaS startup.*

## Education

**Universal College of Engineering** — Mumbai, India

*Bachelor of Engineering in Artificial Intelligence and Machine Learning* ***8.78 C.G.P.A*** — *Aug. 2020 – May 2024*

## Experience

**Solopreneur** — Aug 2026 – Present

*Firstword — Growth Ops Consultancy* — *Mumbai, Maharashtra*

- **Run a solo Growth Ops practice** delivering LinkedIn outbound, GTM consultancy, and product consultancy for early-stage B2B SaaS and SMB clients, owning strategy through execution with no account managers or junior handoffs.
- **Achieved a 36.5% connection acceptance rate and 31.6% reply rate** across client LinkedIn outbound campaigns, converting cold outreach into **100+ booked meetings and demos**.
- **Deliver weekly, hand-checked performance reporting** per client, using per-industry ICP targeting, personalized messaging, and send-time optimization to lift reply rates.
- **Built and deployed automation workflows for SMB clients** across real estate, legal, and D2C verticals to streamline lead capture, qualification, and follow-up.

**Product Manager/Founder's Associate** — Sep 2024 – Aug 2026

*mple.ai — B2B SaaS* — *Mumbai, Maharashtra*

- **Reduced client onboarding time by 70% (7 days to 2 days)** and boosted **Feature Activation Rate by 25%** by restructuring operational workflows and conducting post-onboarding product demos.
- **Propelled Product Adoption by 30%** and increased Daily Active Users by revamping application UI/UX to improve navigation flow and visual hierarchy.
- **Generated 100+ qualified leads in 4 months** via targeted LinkedIn outbound, achieving a **30% reply rate** on accepted connections.
- **Built AI-augmented sales & marketing automation workflows**, triggering instant alerts with AI-generated prospect briefs (use-case fit, profiling) to accelerate follow-up on inbound replies.
- **Spearheaded 0-to-1 product ideation** for a new AI-powered agentic LMS platform, leading strategic roadmap definition to address core B2B SaaS needs.
- **Served as the operating bridge between founders and execution teams**, leading hiring across Product, CS, and QA, training Ops on product enablement, and running daily standups and cross-functional syncs across a 7-developer, 2-designer team.
- **Led compliance and audit readiness**, partnering with security agency Scrut.io to manage and execute evidence-collection tasks for **ISO 27001, SOC 2, and GDPR certifications**, including audit training support for employees.

## Independent Case Studies

**Netflix Root Cause Analysis** | Case Study — Sep 2024 - Sep 2024

- Conducted an in-depth root cause analysis of Netflix's declining viewership, pinpointing 3+ critical factors such as platform specifics, recent updates, and recommendation system changes.
- Identified and proposed 2+ solutions to address key issues, including improving data representation, enhancing model training, and addressing covariate shift problems.
- Recommended optimization of the recommendation algorithm, focusing on improving user retention and reversing the decline in viewership by 10%.
